If you have lived experience of a learning disability, or you have needs – We want to hear from you

Help make Manchester's Learning Disability Strategy for Adults from 2023 to 2028

We are writing the plan that says what services for adults with a learning disability should be like.

We want to know what makes a good service and what needs to change to make services in Manchester better.

We want to hear from you if you are 16 years of age or older and live in Manchester and have a learning disability, or other condition such as autism, a mental health condition, or epilepsy etc. Or, if you are a carer for someone with a learning disability.

You can take part by filling in an online survey
